**THE HOLY MONASTERY OF SAINT PARASKEVI EXPANSION PROJECTS**

Since its establishment in June 2004 the sisterhood of the Holy Monastery of Saint Paraskevi strives daily to fulfill the vision set out by our late founding spiritual Father, Geronda Ephraim.

His vision was to "let the monasteries act as beacons, as Orthodox gathering places and as spiritual oases that Christians will resort to, to feed themselves, to water themselves, to refresh themselves and to be saved."

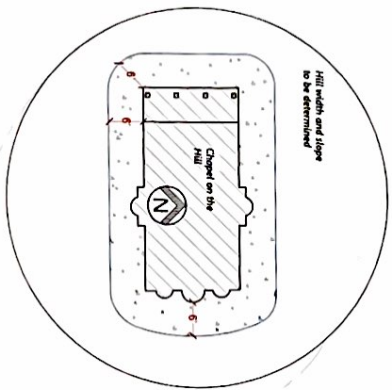

Over time the monastery has grown in both size and services provided to the growing community. The monastery is currently preparing for the next three critical expansion projects.

1. Fencing the monastery property and building a proper entrance with an expanded paved parking lot.
2. Expanding the cemetery and building a chapel dedicated to the Theotokos.
3. Building living quarters for the growing sisterhood.

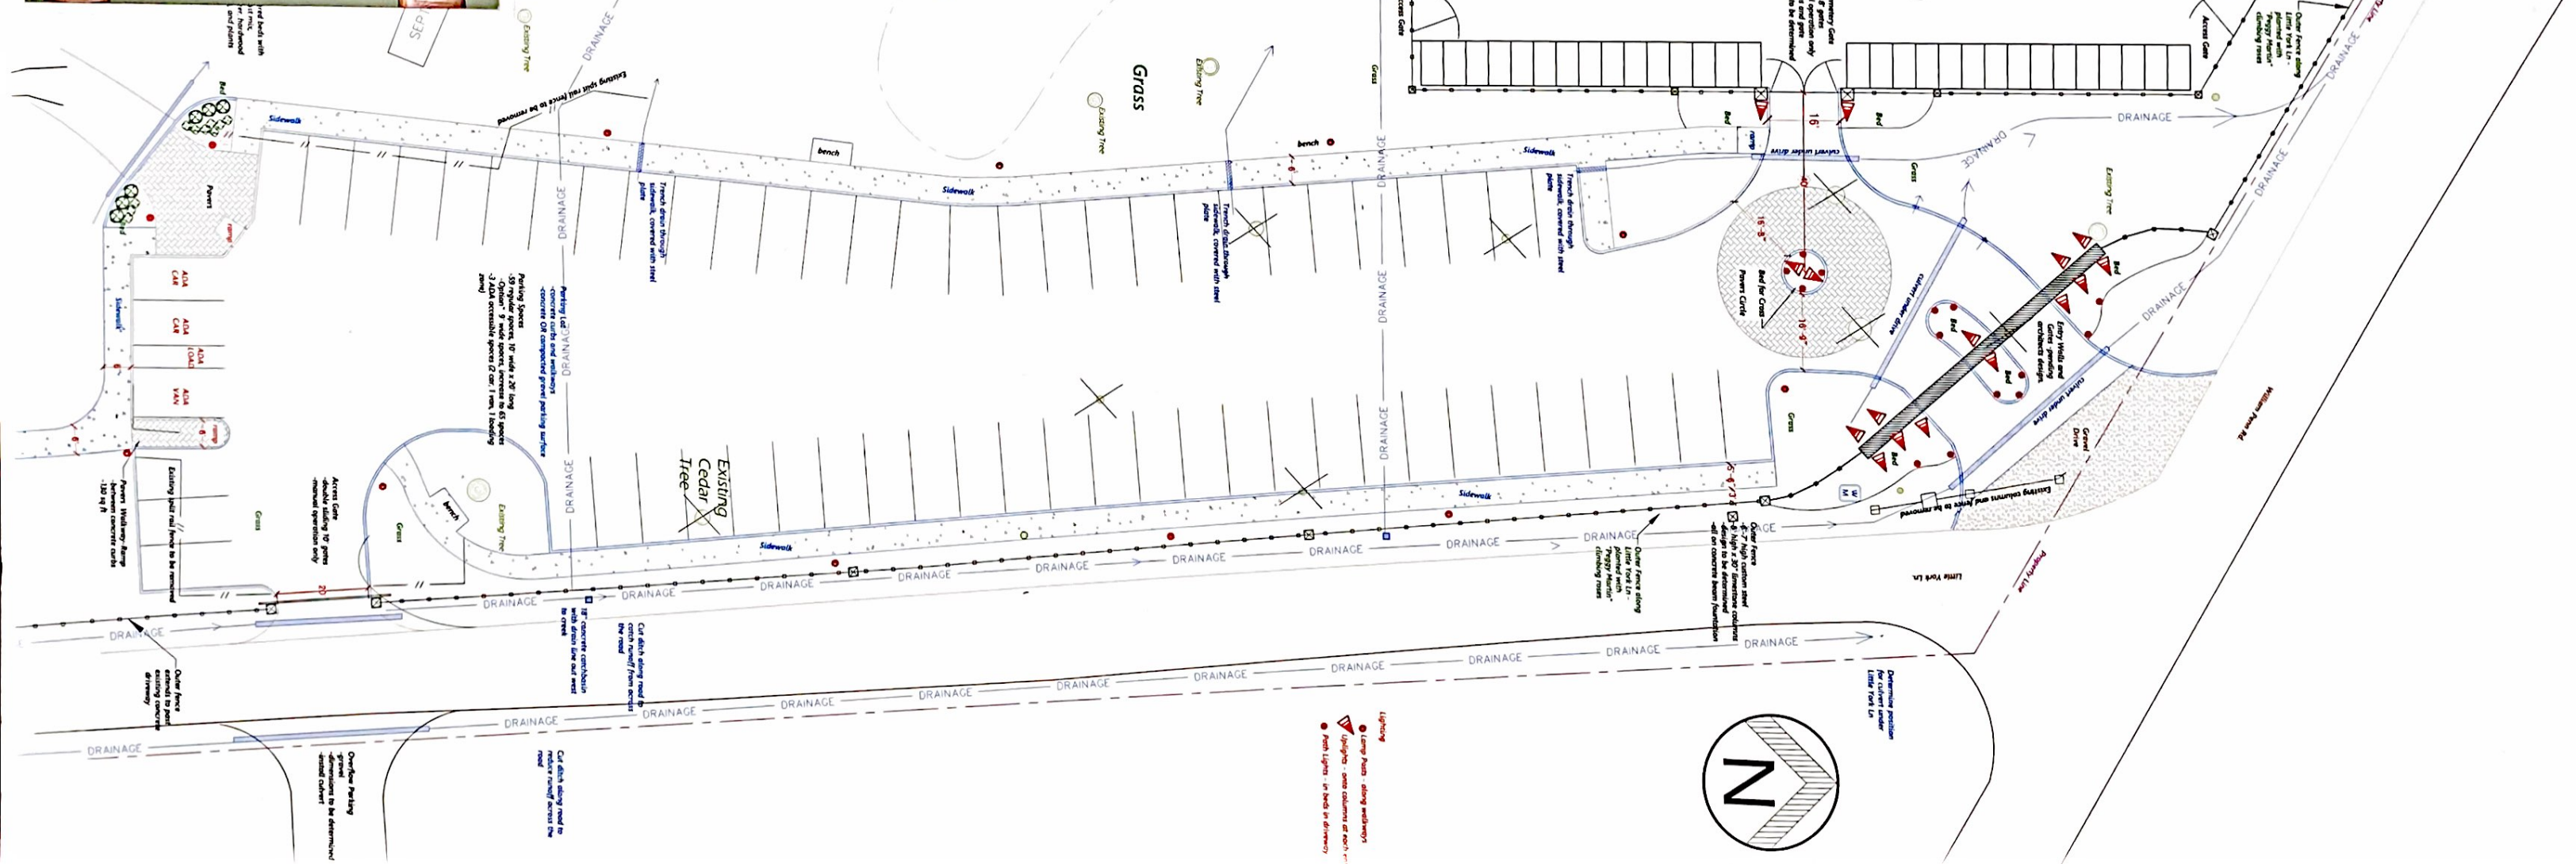

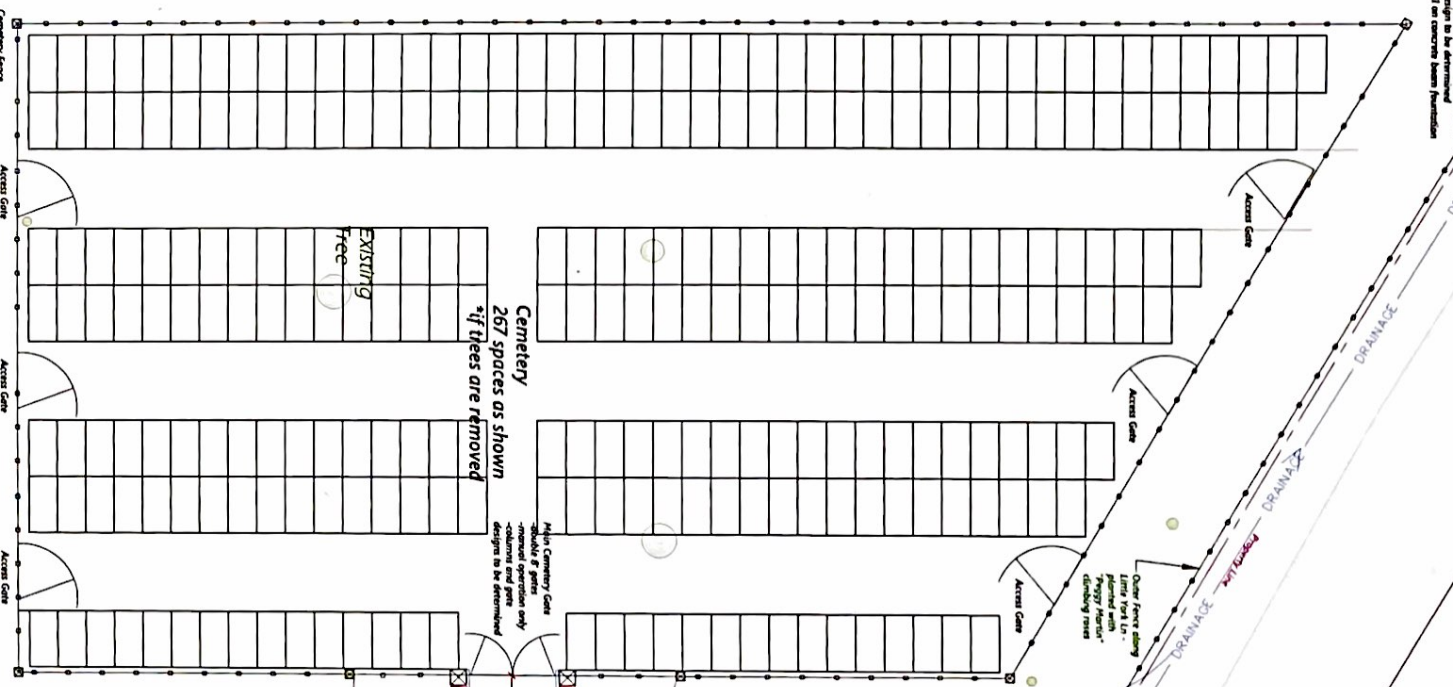

The sisterhood worked with an architectural firm to finalize the plans for these projects. While all three projects are essential, the first two are logistically interconnected and have taken priority. Construction has already started on the first project, the parking lot, and all projects will continue as funds are secured.
